A unique and challenging program combining Sustainability and Sport

D2041 with the support of the prestigious LightBaySailing Team is pleased to offer to the participants of this camp a unique experience related to the theme of Sustainability and Sport, in particular Sailing, as it represents an ideal place for training and experimentation, an environment where it is possible to embrace values and reproduce fundamental dynamics such as sustainable strategies, problem solving, team working and leadership.

Understanding the meaning and value of Sustainability, seeing it applied to operational processes and aimed at bringing value and pursuing excellence.

Goal of the Camp is to provide students examples of sustainability at work through the opportunity to visit outstanding companies that have made sustainability their driver of innovation and growth, as well as to experience the highest levels of sustainability related to the world of sailing by preparing for and participating in a major race in Mediterranean sea aboard the PENDRAGON, a dream maxy yacht of 70 feet, holder of major victories worldwide and that has hosted the most important Olympic champions.

Last but not least, the camp will offer the opportunity to discover beautiful Italian cities like Milan and Genoa and wonderful famous villages like Cinque Terre and Portofino.
